

# STOP THE 13-UNIT TOWNHOUSE DEVELOPMENT

26 Titus Avenue (at Calef Road) • Case #ZBA2026-063

PUBLIC HEARING — THURSDAY, SEPTEMBER 10, 2026 — 6:00 PM — CITY HALL, 3RD FLOOR

8 UNIT BUILDING — AT GRADE FRONT ENTRY AND WALKOUT

*The developer's own rendering: the 8-unit building, as proposed*

## CONTRARY TO THE PUBLIC INTEREST

The City just rezoned this corner single-family

## ORDINANCE NOT OBSERVED

6 variances sought

## VALUES OF SURROUNDING PROPERTIES AFFECTED

No appraisal, no market data — only the developer's say-so

## NO HARDSHIP TO THE OWNER

Their own submission shows 5 buildable lots

*The proposal, surrounded by single-family homes on Mystic St., Titus Ave. and Calef Rd.*

The lot is 49,484 sq ft — zoning requires 78,000 sq ft for this many units. Even under the ordinance's most generous density rule, this land supports 8 units. They want 13.

- Townhouses are not permitted in this district — the City's own zoning review says so directly, and denied the permit on that basis.
- The City rewrote its zoning ordinance this year (effective March 1, 2026) and kept this corner single-family. The developer bought the lot from the City in 2024 knowing that.
- No traffic or safety analysis for a corner already shared with a 96-unit complex — the City's review marks intersection visibility “No Information.”
- Exceeds maximum height restrictions — 38 feet proposed where 35 feet is the max allowed.
