RE: ZBA2026-074, 191 Portsmouth Avenue, B-2

Zoning Relief Required for Building Permit

Your application for a permit dated **July 30, 2026** to **construct a 5' x 6' gabled awning over the front stairway with a 10' front yard setback where 20' is required in the R-1B Zoning District**, all as per documents submitted through **July 30, 2026** and with non-compliance listed in the Zoning Review dated **August 17, 2026** is hereby acknowledged.

According to Section(s) **5.3.1.A.3.C Minimum Front Yard Setback** of the Zoning Ordinance of the City of Manchester, New Hampshire, passed to be ordained on March 1, 2026, this is prohibited. Consequently, I have no authority to grant this permit. Permit is hereby DENIED.

Further proceedings contemplated pertaining to this application must be pursuant to NH Revised Statutes Annotated 674:33 or the other statutory provisions relative to Zoning Boards of Adjustment, as may be appropriate.

Relief Sought From Section(s): _____

1. The variance would not be contrary to the public interest because: The Awning will not obstruct traffic, create safety hazards, or interfere with neighboring properties. It is common residential feature that enhances safety and convenience.
2. The spirit of the ordinance is observed because: The request is limited to a small encroachment into the front setback and does not change the residential use or character of the property.
3. Substantial justice would be done because: Creating the variance allows a reasonable home improvement that improves safety and weather protection without causing harm to the public or neighboring properties.
4. The values of surrounding properties would not be diminished because: A professionally installed awning will improve the home's appearance and functionality and is not expected to negatively affect surrounding property values.
5. Literal enforcement of the provisions of the ordinance would result in unnecessary hardship if:
 - (A) Owing to the following special conditions of the property that distinguish it from other properties in the area:
 - i. No fair and substantial relationship exists between the general purposes of the ordinance provisions and the specific application of that provision to the property; and
 - ii. The proposed use is a reasonable one.

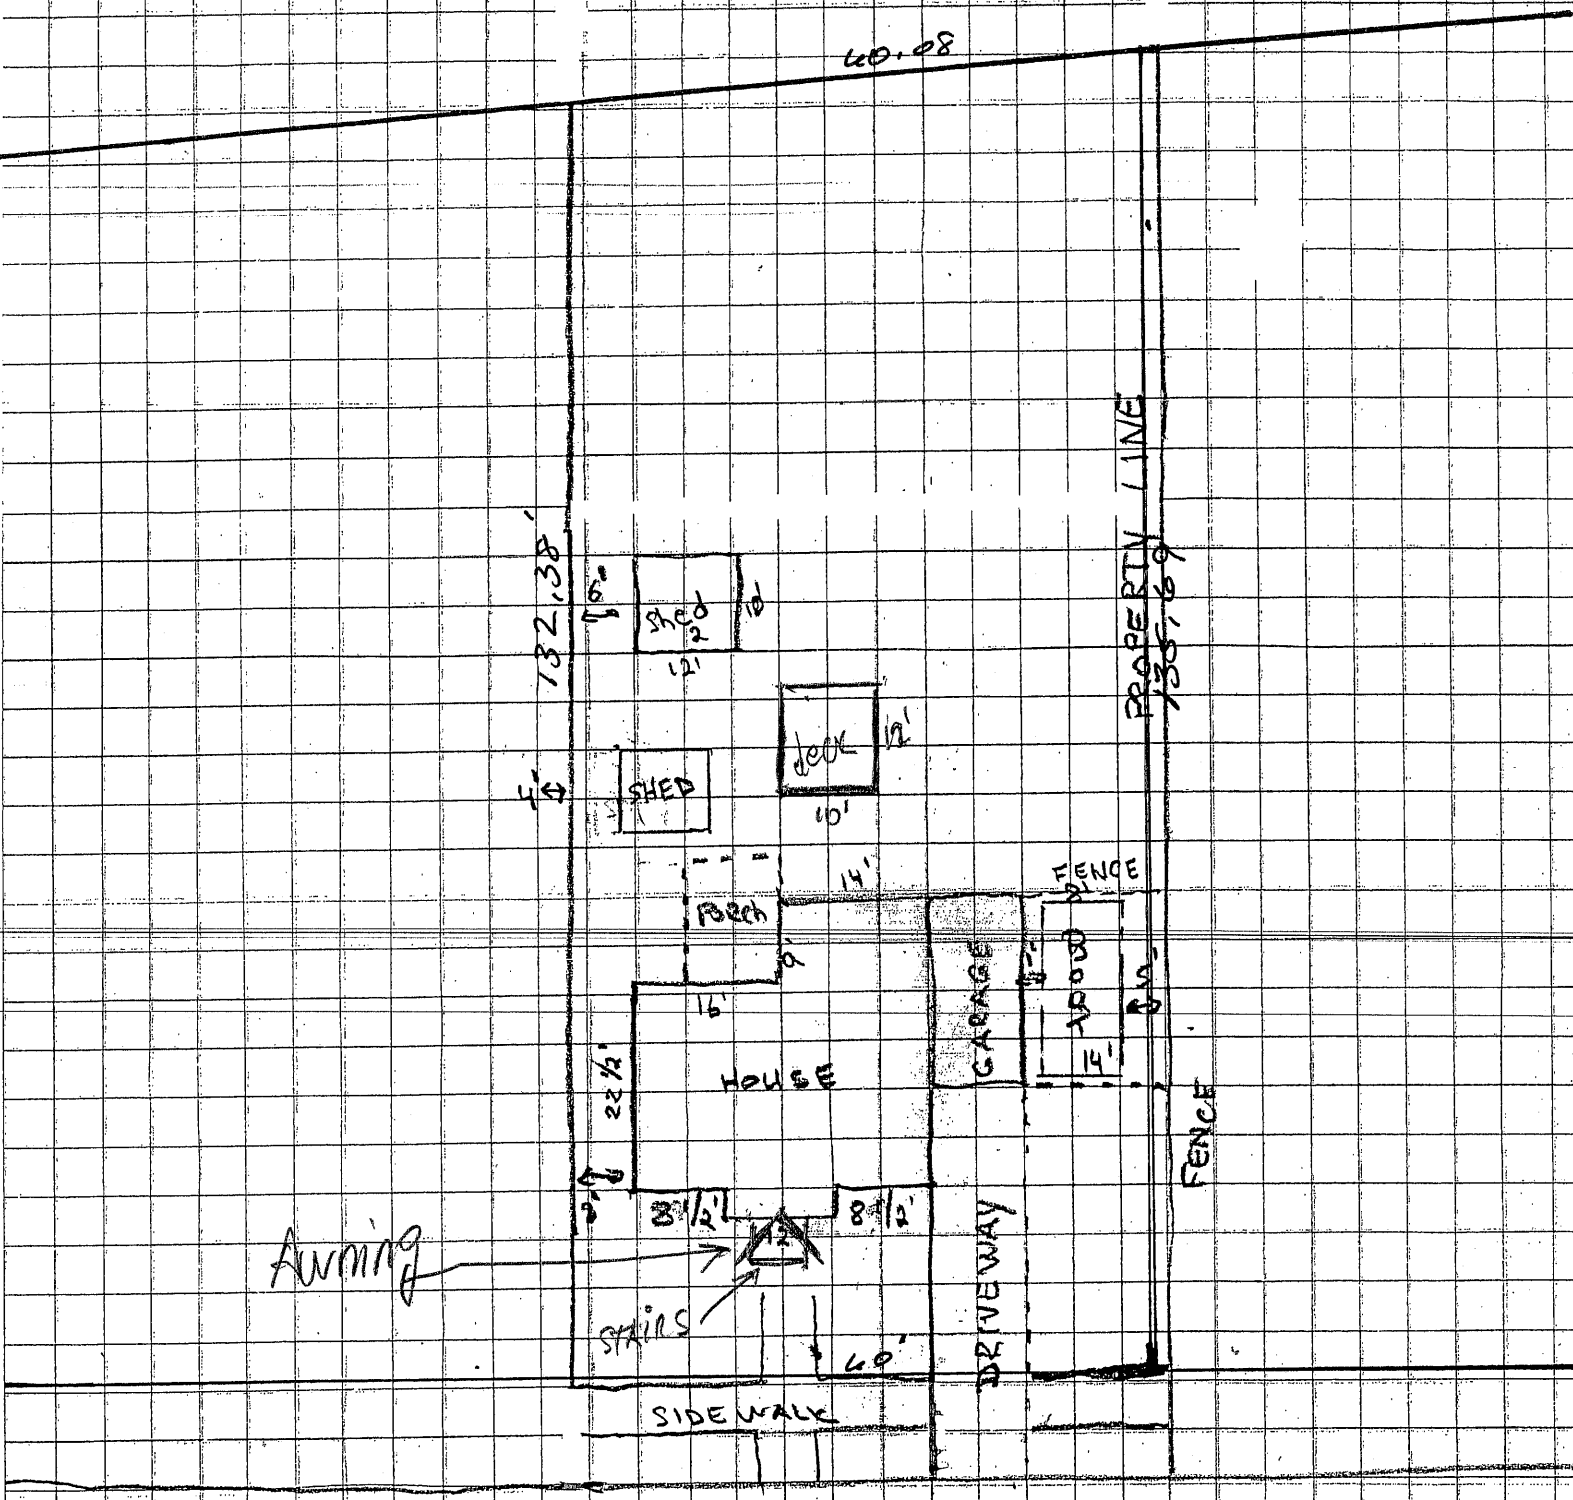

Because of the existing placement of the home's front entrance, strict enforcement of the setback requirement prevents installation of an effective protective awning. The requested variance is the least amount of relief necessary to address this hardship.

Or (B) Owing to the following special conditions of the property that distinguish it from other properties in the area, the property cannot be reasonably used in strict conformance with the ordinance, and a variance is therefore necessary to enable a reasonable use of it.
